

Offering one of the widest ranges of instrumentation for the EOD, Search and Rescue, Special Operations, Customs and military community, OptiScan provides law enforcement and the military organizations the tools needed to perform the most demanding missions.

These products used by organizations throughout the world, are made to meet the most demanding standards of operational reliability.

When the success of a mission depends on you — you can depend on OptiScan.

OPTISCAN MIR/R ILLUMINATED VEHICLE INSPECTION SET

Constructed of space age materials, the MIR/R brings to bear years of tactical experience and is used by police and military throughout the world. This versatile tool enhances the inspection process by providing an ergonomically balanced design that reduces fatigue. The MIR/R's highly reflective polycarbonate surface and battery powered light insures detection of hidden objects, even those covered by dirt or grease. The telescopic T Handle allows the units to fold away when not in use. A glass convex mirror is available on special order. With MIR/R contraband and explosives have nowhere to hide.

MIR/R with 110v charger part no. 0012600

OPTISCAN TIM. part no. 000100

A purpose made telescopic handle which will accept a variety of mirrors. When closed, the four section handle measures just 480mm, and will extend to a maximum length of 1.6m. A revolutionary twist and lock mechanism enables the TIM to be locked at any length. Manufactured from anodised aluminium, the TIM is the most rigid telescopic arm available.

OPTISCAN TIM-ILL. part no. 000200

As the TIM but fitted with a D cell torch, useful during searches carried out in low light levels.

OPTISCAN TOM. part no. 000300

A D cell flashlight fitted to a rigid steel arm. Overall length 0.5 m.

FROM LEFT TO RIGHT: TOM, TIM-ILL and TIM.

THE ENDOSCOPE SEARCH KITS.

Two search kits designed to aid the search of cars, buildings and vessels. Both portable, and come packed in foam lined fitted cases and include a fixed side viewing endoscope - overall diameter 12mm, working length 300mm illuminated by a powerful 10 W halogen lamp. Both come complete with a 12V 2.3 Ah rechargeable power pack and battery charger. Both kits arrive ready to use with spare lamps.

ENDOSCOPE KIT. part no. 009900

This kit contains:
 1 Rigid endoscope 12mm diameter 300mm long 12V.
 1 Power pack for endoscope.
 1 Battery charger for power pack.
 1 Belt and pouch for power pack.
 1 Spare bulb 12V 10W for endoscope.
 1 Foam lined fitted case.

THE FOLLOWING MIRRORS ARE SUITABLE FOR USE WITH THE TIM, TIM-ILL AND TOM PRODUCTS:

- SM-38-P. part no. 001700
38mm diameter plano screw fitting mirror
- SM-65-P. part no. 001400
65mm diameter plano screw fitting mirror.
- SM-65-PX. part no. 001500
65mm diameter plano screw fitting mirror with protective ring around mirror.
- SM-R-P. part no. 000800
65mm x 115mm plano screw fitting mirror.
- SM-100-P. part no. 001300
100mm diameter plano screw fitting mirror.
- SM-140-P. part no. 001100
140mm diameter plano screw fitting mirror.
- SM-140-C. part no. 001000
140mm diameter wide angle screw fitting mirror.
- SM-140-SS. part no. 001200
140mm diameter plastic screw fitting mirror.
- SM-140-CX. part no. 000400
140mm diameter wide angle screw fitting mirror. With protective ring around mirror.

ENDOSCOPE SEARCH KIT, part no. 009800

This kit contains:
 1 Rigid endoscope 12mm diameter 300mm long 12V.
 1 Power pack for endoscope.
 1 Battery charger for power pack.
 1 Belt and pouch for power pack.
 1 TIM telescopic inspection arm.
 1 TOM rigid torch arm.
 1 SM-R-P 65 x 115 plano screw fitting mirror.
 2 SM-140-C 140mm diameter wide angle screw fitting mirror.
 1 SM-65-P 65mm diameter plano screw fitting mirror.
 1 Spare bulb 12V 10W for endoscope.
 1 Foam lined fitted case.

SAFE-C part no. SE000600

An illuminated security mirror to assist in vehicle, boat or aircraft search. The Safe-C incorporates a telescopic handle measuring just 20cm when shut, yet extends to 80cm when in use. An automatic on/off switch provides illumination to the mirror offering excellent vision day or night. The Safe-C mirror is compact enough to be carried in your pocket. (Accepts 2 x AAA batteries.)
